“ Please accept my condolences on the death of Dennis Langston. It was a shock to hear of his passing at such a young age. I know mere words may offer but little comfort at this tragic time, but know that my deepest feelings of sympathy lie with you and your family.

Memories:

I remember when we used to play pool in the basement at his home in Manchester, MO. when we were in high school. I remember the day he met his wife when we went out for a drink one night. I remember that he was always a good friend and I am glad he is in heaven with God and no longer in pain. RIP my friend. You will be terribly missed.
